### Me

A student in third year of LICENSE in software engineering and computer science specialized in SOFTWARE ARCHITECTURE. I'm searching for an internship in software development. I like Linux and low-level programming. I can manage a program from the beginning to the end. I can work with the latest web technologies.

### Education

**THIRD YEAR of LICENSE in COMPUTER SCIENCE**  
Specialized in SOFTWARE ARCHITECTURE  
ESGI Paris 2017 - 2019

**A LEVEL** Economy and sociology  
Nouméa 2016 Blaise Pascal

### Experience

**Dev ops (internship)** Barrau Business Systems  
2019 (2 months) Nouméa  
Wrote python, bash and powershell scripts for automating tasks.  
Managed an active directory forest.

**Developer Web (Summer job)** Comeon  
2016 (1 month) Nouméa  
Learnt HTML/CSS/JAVASCRIPT and frameworks such as Joomla, Wordpress and Concrete5.

### Projects

**momvcf** PHP  
2019  
My own mvc framework written in PHP. Simple and minimalist.

**myself** HTML/CSS  
2019  
A site about myself, responsive and simple.

### Volunteering

**Free software speech** CinéCitoyen - Nouméa  
2016  
I have organized and animated a talk to help non-tech people understand the problem of privacy and data leaking on the internet.
